Our Vision

Everybody should be able to wear well-fitted shoes!
With our premium-quality medical products we want to ease our customer‘s daily struggle to move around and thus giving them a better quality of life. Our daily amibition is to further develop our range of products, so that we are able to offer a customised solution to a whole spectrum of foot problems. This, as a result, enables us to provide everyone with a good-fitted pair of shoes.

Experience

German Footwear Manufacturing since 1959
Being a long-standing, Germann shoe manufacturer, we know exactly how to intertwine tradition and innovation. Since 1959, we have been creating high quality products and offer clever solutions for a whole scope of foot problems. For that reason we pour a lot of experience and our hearts and souls dedication into developing innovative shoes – not only to make them functional but also visually appealing. We are continually searching and working on creative ways for our shoes to enhance our assortment.

Sustainability

Made in Germany & Made in Europe
Sustainability is another key value in assembling our shoes. Hence the majority of our products are manufactured directly at our company’s site in Bavaria and are therefore Made in Germany. In terms of sustainability, this naturally also applies to our material procurement. In conclusion, we only cooperate with contractors and suppliers from the EU and we are mindful of particular short transport routes. Your decision for our shoes is leading to your reduced ecological footprint.

Quality

Varomed. The original with the V
In our function as the German shoe manufacturer Florett, we market our products under the trademark Varomed. The products of Varomed have been positioned on the market for years and have proven to be a German quality product. Therefore we can say with fervour: “We are the original with the V“. We set high standards for fair working conditions, sustainable production processes and an excellent quality of our shoes and these form the basis for our day-to-day work. Our medical products are well-known and certified according to European standards.
